A Hyundai Licensed Product

Pictures are for illustration purposes only. Actual unit may differ.

A blue Hyundai i10 is shown from a front-quarter perspective, driving on a road. The background features a coastal landscape with a blue sea and a cliffside under a clear sky. The car's license plate reads 'i10 Calburz'.

## Life is for living. So live it your way.

When it comes to your next car, every choice seems difficult. There is always a but. You want quality but not sky-high prices. You want performance but you need economy and low emissions. You want comfort but small is convenient. You want fun driving but safety is a real priority. So maybe you'll just have to compromise. Or, if you're smart, consider the i10. It's a real Hyundai, and that means no compromise on quality, performance, safety or eco-friendliness. And if we don't compromise, why should you? In addition we believe everyone has the right to lasting comfort and peace of mind, without paying premium prices.

# Looks or purpose? With the i10, they're indistinguishable.

Possessing clean and modern lines, the i10 is not just stylish, it's practical. Entry is easy with the arched roof. The smooth rake of the hood and windshield improves aerodynamics. In other words, the i10 brims with personality and functionality.

For increased visibility and safety, the indicator side repeaters are housed in the side mirrors. The stance is broad and reassuring, highlighted by the sporty wheel arches. The generous glass area is stylish and gives great clear vision and a light airy interior.

#### NEW FRONT GRILLE

The dynamic trapezoid grille with its deeply moulded, eye-catching, Inokom logo highlights the stylish family resemblance.

#### EXTERIOR MIRROR INDICATOR REPEATERS

Extra style with extra safety. These repeaters make your intention to turn very clearly, even if other road users cannot see the front or rear lights.

#### NEW CLEAR HEADLIGHTS

The newly designed clear headlight clusters not only look good, they improve both your night vision and your on-road visibility, adding elegance and extra safety.

#### NEW FOG LAMPS

Designed to enhance visibility at night or during bad weather, the new recessed diamond shaped fog lamps do more than just look good.

# Safety features that react to any situation before you.

ENTRY LEVEL CAR OF THE YEAR  
HYUNDAI i10  
(1.25 F KAPPA)

The i10 delivers safety that you can depend on. The active safety of the responsive road-hugging handling and 4-channel anti-lock ABS brakes are complemented by passive safety that includes pretensioned front seatbelts and dual front airbags for the driver and front passenger. The new clear front and rear light clusters and side mirror indicator repeaters allow you to see and be seen more clearly. With a rigid and tough body structure, an infrastructure that intelligently absorbs and diffuses impact to protect the whole passenger area, you can have peace of mind, whatever the conditions.

## REVERSE PARKING SENSOR

While the i10 is probably the easiest car you will ever park, the reverse parking sensor is mounted in the rear fender and sounds a warning against hazards you cannot easily see, making parking even simpler and safer.

## DUAL AIR BAGS

In the unfortunate event of a frontal impact, the intelligently safe i10 provides dual airbags for the driver and front passenger.

## RIGID SAFETY STRUCTURE

The basis of every modern Hyundai is the rigid safety structure. Created using computer dynamics and thoroughly tested to withstand immense impacts and pressures, this forms the basic passenger protection cell, as well as providing an intensely rigid mounting for the rest of the components. It is light, because we use the finest high-strength materials, but stable. It is the basis not only for the safety of the i10, but also of its dynamically safe handling.

## ABS WITH EBD

The i10 features 13inch front disc and large 7inch rear drums. Together with the 4-channel ABS brake booster and assistant systems, you'll have the reserves of braking power and non-skid security.

# Why the i10? We let the features speak

The i10 not only fits your personal style but helps protect the environment as well. The dynamically efficient engine ranges from a 1.1 litre with 69ps to the 1.25 litre with 87ps. Continuous Variable Valve Timing (CVT) that measures every drop of fuel for maximum efficiency is available on the 1.25 litre. These engines deliver not only exceptional fuel economy, they give really low emissions.

## 1.1 ℓ Epsilon

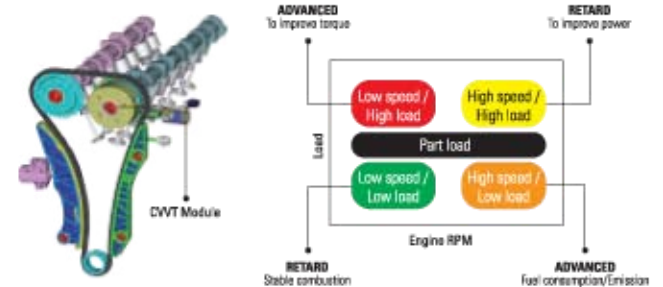

Type	1.1 Epsilon
Displacement	1086cc
Max Power	69 ps @ 5500 rpm
Max Torque	10.1 kg.m @ 4500 rpm

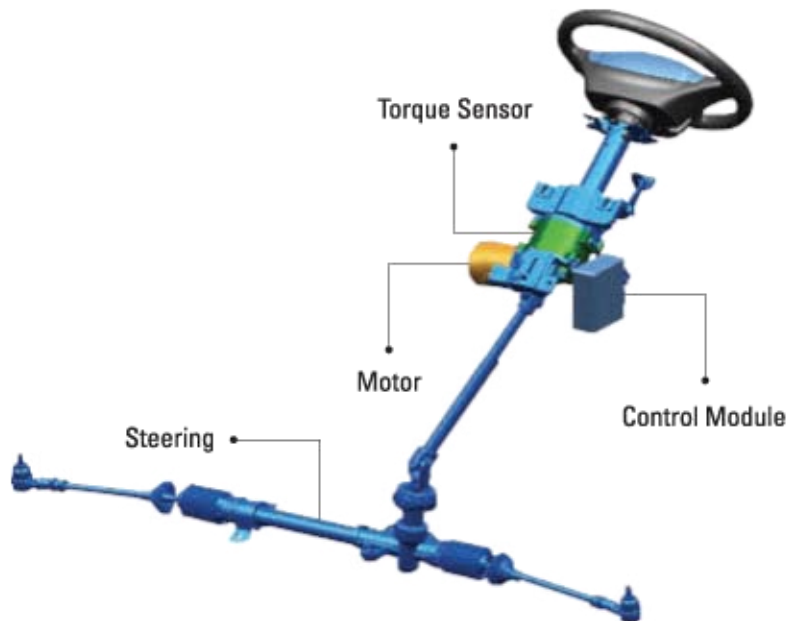

## 1.25 ℓ Kappa CVVT

Type	1.25 Kappa CVVT
Displacement	1248cc
Max Power	87 ps @ 6000 rpm
Max Torque	12.2 kg.m @ 4000 rpm

CVVT is Continuous Variable Valve Timing System which continuously adjusts the camshaft timing base on certain engine load to optimise the engine performance and fuel consumption.

## MOTOR-DRIVEN POWER STEERING (EPS)

### Improved steering quality:

Steering force management according to vehicle speed

### Enhanced fuel economy:

Deletion of hydraulic pump allows reduction in weight and improvement in fuel economy by 3% ca.

### Enhanced production efficiency:

Reduced number of parts, reduced time required to equip

### Environmentally-friendly:

Deletion of hydraulic oil, lessened waste material

**REAR ROOF SPOILERS**

New stylish rear spoilers are integral to the aerodynamics of both the i10 models.

**AUDIO VISUAL NAVIGATOR WITH GPS\***

The double DIN audio visual navigator with GPS\* comes with full wrap-around sound from four speakers which are MP3 capable.

**INFORMATION CENTRE**

A full range of warning and alert lights, together with easy to read dials, lit by eye-friendly blue LED lighting, keeps you informed. The blue light also extends to the shift indicator, electric window controls and the audio display panel.

**DIGITAL GEAR INDICATOR AND FUEL GAUGE**

Eye-pleasing blue LED lighting keeps you updated on fuel consumption and gear change, in an easy to read dials topped with warning and alert lights.

**UNDER-SEAT TRAY**

This useful storage tray keeps all your journey's need ready to access, but safely out of sight, beneath the front passenger seat.

Only for Kappa 1.25 €

Help is at hand with the FREE 24/7 Roadside Assist\*. Designed to provide protection to Hyundai owners in case of accidents, vehicle breakdown, parts malfunction or even a flat tyre. Roadside Assist will provide you with assistance needed, covering on-site repair or towing services. Here we present you the ultimate freedom to roam with peace of mind like never before. Terms & conditions apply.

\* Refer to 24/7 Roadside Assists leaflet for details.

\*Terms & conditions apply

Discover the world. Be thrilled that your Hyundai is assured up to 300,000km or 5 years, whichever is earlier, an exclusive warranty for all Hyundai users. That means you can drive up to 164 kilometres a day for 5 years and know that your Hyundai is taken care of. You can even choose to drive across the globe up to 7 times! Our bold testament is a testimony of Hyundai's faith in our vehicles.

## NEW THINKING. NEW POSSIBILITIES.

People's expectation towards individual mobility requires more than just a convenient means of transportation. The old understanding of cars has become outdated. A car represents individuals' lifestyles, and it became an integral part of their lives. At the same time, the automobile industry has experienced seismic change. Hyundai Motor Company has grown rapidly to become one of the largest automakers, backed by world class production capability and superior quality. We have now reached a point where we need a qualitative approach to bring bigger ideas and relevant solutions to our customers. This is an opportunity to move forward and we have developed a new brand slogan that encapsulates our willingness to take a big leap. Led by our new slogan and the new thinking underlying it, we will become a company that keeps challenging itself to unlock new possibilities for people and the planet.
