HYUNDAI | NEW THINKING. NEW POSSIBILITIES.

SONATA

safe drive 24/7 ROADSIDE ASSIST

*Terms & conditions apply.

Help is at hand with the FREE 24/7 Roadside Assist*. Designed to provide protection to Hyundai owners in case of accidents, vehicle breakdown, parts malfunction or even a flat tyre. Roadside Assist will provide you with assistance needed, covering on-site repair or towing services. Here we present you the ultimate freedom to roam with peace of mind like never before. Terms & conditions apply.

* Refer to 24/7 Roadside Assists leaflet for details.

5 YEARS or 300,000 KM WARRANTY*

*Terms & conditions apply

Discover the world. Be thrilled that your Hyundai is assured up to 300,000km or 5 years, whichever is earlier, an exclusive warranty for all Hyundai users. That means you can drive up to 164 kilometres a day for 5 years and know that your Hyundai is taken care of. You can even choose to drive across the globe up to 7 times! Our bold testament is a testimony of Hyundai's faith in our vehicles.

NEW THINKING. NEW POSSIBILITIES.

People's expectation towards individual mobility requires more than just a convenient means of transportation. The old understanding of cars has become outdated. A car represents individuals' lifestyles, and it became an integral part of their lives. At the same time, the automobile industry has experienced seismic change. Hyundai Motor Company has grown rapidly to become one of the largest automakers, backed by world class production capability and superior quality. We have now reached a point where we need a qualitative approach to bring bigger ideas and relevant solutions to our customers. This is an opportunity to move forward and we have developed a new brand slogan that encapsulates our willingness to take a big leap. Led by our new slogan and the new thinking underlying it, we will become a company that keeps challenging itself to unlock new possibilities for people and the planet.

Sonata

THE NATURAL EVOLUTION OF PERFECTION

THE SONATA: FLUIDIC SCULPTURE, EVOLVED

Elegance, dynamics, and esthetics. If the previous Sonata defined Fluidic Sculpture, the latest model is a natural development of that philosophy: Fluidic Sculpture 2.0. The new model is one of a kind, setting a new benchmark for mid-sized sedans.

Pictures are for illustration purpose only. Actual unit may differ.

[F-141]

Design, esthetics, emotion, and confidence

VISIBLE

Strength, security, power, and reassurance

INVISIBLE

INNER FORCE: OUTER BEAUTY

Understanding the essence of what a car should be was the priority of the Sonata's designers. To emphasize its strength and grace, they accentuated its forms and lines. In doing so, they brought out the mark of true beauty: confidence.

LF-1411

Pictures are for illustration purpose only. Actual unit may differ.

LF-1411

Pictures are for illustration purpose only. Actual unit may differ.

EXTERIOR

ATTENTION TO DETAIL

Improvements have been made one step at a time. Curved, sculptural bodywork gives the car a modern, classy look. Simplicity and style define the exterior of the car.

LF-1411

Pictures are for illustration purpose only. Actual unit may differ.

EXTERIOR FEATURES

Bi-Xenon HID Lamps*

High-Intensity Discharge (HID) headlamps illuminate the roads with a crisp, intense light. Its slim design forms a natural extension of the car's salient belt-line molding.

Integrated into the headlamps, Active Cornering Lights will illuminate dark areas when navigating bends.

Smart Trunk System

Get to open the trunk lid automatically by standing near it with the smart key for 3 seconds, so you may place your bags in without having to put them down first.

Radiator Grille

The radiator grille makes a statement that is bold, forthright and uniquely Hyundai. Hexagonal and three-dimensional, it adds a touch of glamour while blending with the bodywork.

Daytime Running Lights (DRL)

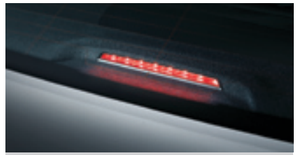
Now a standard feature, DRLs add a new dimension to safety and make a bold style statement.

Rear Combination Lamps

Wraparound rear LED lamps complement the sculpted curves of the Sonata besides enhancing day and night visibility.

18" Alloy Wheels*

Ultra strong multi-spoke type aluminium wheel maximises not only performance and style but the NVH function as well.



High-Mounted Stop Lamp

A high-mounted stop lamp, located in the eye line of drivers traveling behind, alerts them when you brake and helps ensure they keep their distance.

Rain Sensor & Aero Blade Wipers*

A sensor automatically controls the speed of the wipers by sensing the amount of rainfall. Aero blades prevent the wipers lifting at high speed.

Welcome Light Door Handles

Lights on the inside of the door handles allow you to easily locate the handles in the dark, while giving a touch of elegance.

LED Rear Fog Lamps

Ensures a safer night drive and better visibility for approaching vehicles especially when inclement weather occurs.

Muffler

The aggressively shaped muffler tail trim provides a sense of high performance. The dual version multiplies this feeling twice over.

LF-1411

*Only available for Executive.

Pictures are for illustration purpose only. Actual unit may differ.

COMFORT AND CONVENIENCE

Step into the Sonata and notice the careful attention to details. From quality material that you can feel to aesthetically classy trims, and refined finishing that are pratical. All guages and controls have been perfectly sized and laid out in logical clusters for effortless operation.

LF-1411

INTERIOR

COMPLETE CONTROL AT EVERY TOUCH

From the driver's seat, the interior feels both reassuring and intimate.
The horizontal dashboard layout creates a feeling of stability and refinement.
To keep your attention on the road ahead, the cluster and audio system
are placed parallel with your eye line.

Pictures are for illustration purpose only. Actual unit may differ.

LF-1411

INTERIOR FEATURES

T-Shaped Center Fascia

Designed with the help of a motion simulator, the T-shaped center fascia is driver-oriented from top to bottom. Switches, screens, and controls are positioned just where your hand, eyes, and fingertips expect them to be.

Dual Zone Auto Air Conditioning

Empowers driver and front passenger with individual temperature controls for personalised dual zone front automatic air-conditioning that presents maximum comfort.

Supervision Cluster**

User-centered layout allows easy, intuitive control. The comprehensive display is also easy on the eyes.

Rear View Camera**

This completely weather proof rear view camera system provides a clear vision when you reverse. Eliminating the blind spot and accidental collision.

Electronic Chromic Mirror (ECM)*

The Electric Chrome Mirror (ECM) makes sure you're not blinded by lights reflected from the car behind you. It automatically senses and reduces the intrusion of light.

Seat Folding System

The rear seats fold down in a 6:4 configuration, offering plenty of flexibility when it comes to carrying your bags and other cargo.

Smart Key with Start Stop Button

The Sonata automatically detects your Smart Key when you approach. Unlocks the car with the touch of a door handle button, and enables a key-less ignition and stop.

Safe Drive Recorder**

Enables the recording of videos throughout your drive for "eye-witnessing" purposes that you can just play and watch.

Spacious Rear Seats & Ample Leg Room

The Sonata has more total interior space than any other vehicle in its class, ensuring even more comfort on long journeys.

Rear Air Ventilation

Rear air ventilation means passengers in the back can enjoy a pleasant air temperature.

Panorama Sunroof*

What can be better than throwing open the sunroof on a fine sunny day? The wide panorama sunroof lets in light and sunshine, providing a wonderful feeling of space.

Audio Visual Navigation (AVN)**

The Android operating system allows social networking based navigational systems to be used to avoid heavy traffic.

*Only available for Executive.

LF-1411

TECHNOLOGY THAT PUTS YOU OUT IN FRONT

There are many facets of driving. The open road promises freedom and different terrains to tackle, and of course, other drivers to be aware of. The Sonata prepares you for whatever comes next with its full range of technologically advanced systems. Its supreme engineering makes sure that driving is always convenient and safe.

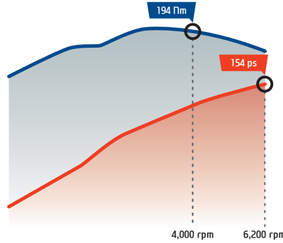
PERFORMANCE

ACTIONS AND REACTIONS

During high-speed driving, stability is crucial. Aerodynamics is a vital contributor to stability. Here, the Sonata proves that a studied, elegant body shape doesn't just provide stunning looks, but also reduces drag. With the hood tip lowered and minimal tire visibility, the car simultaneously hugs the road while delivering enhanced fuel efficiency.

LF-1411

Pictures are for illustration purpose only. Actual unit may differ.



Nu 2.0 MPi GASOLINE ENGINE

The lightweight and responsive Nu 2.0 MPi gasoline engine delivers a maximum 194 Nm of torque at 4,000 rpm.

MAX. POWER **154**ps

MAX. TORQUE **194**Nm

Auto Cruise Control

Auto cruise control lets you set and maintain your desired speed. It's perfect for long road trips, because it prevents you from accidentally passing the speed limit. At the same time, you can let your feet relax while saving fuel.

Hillstart Assist Control (HAC)

The Sonata's Hillstart Assist Control (HAC) makes life easier. It frees drivers from worries about starting uphill by stopping the car from rolling backwards.

6-Speed Automatic Transmission

The 6-speed automatic transmission provides high-precision response, silky-smooth shifts, and outstanding fuel economy.

Drive Mode Control System

This lets you choose from three different driving modes – normal, sports and active eco. The system will vary the MDPS, throttle response and even the air-conditioning in order to optimize vehicle performance.

Amplitude Selective Damper (ASD)

This works by varying the car's shock absorbtion capabilities, to increase stability and comfort. Driving on a smooth, well – maintained road or a bumpy, uneven one, a comfortable ride and steady handling are preserved.

Tested in Nürburgring, Germany

The all-new Sonata was tested in a variety of locations worldwide, including the famed Nürburgring in Germany at Hyundai Motor's dedicated Technical Center.

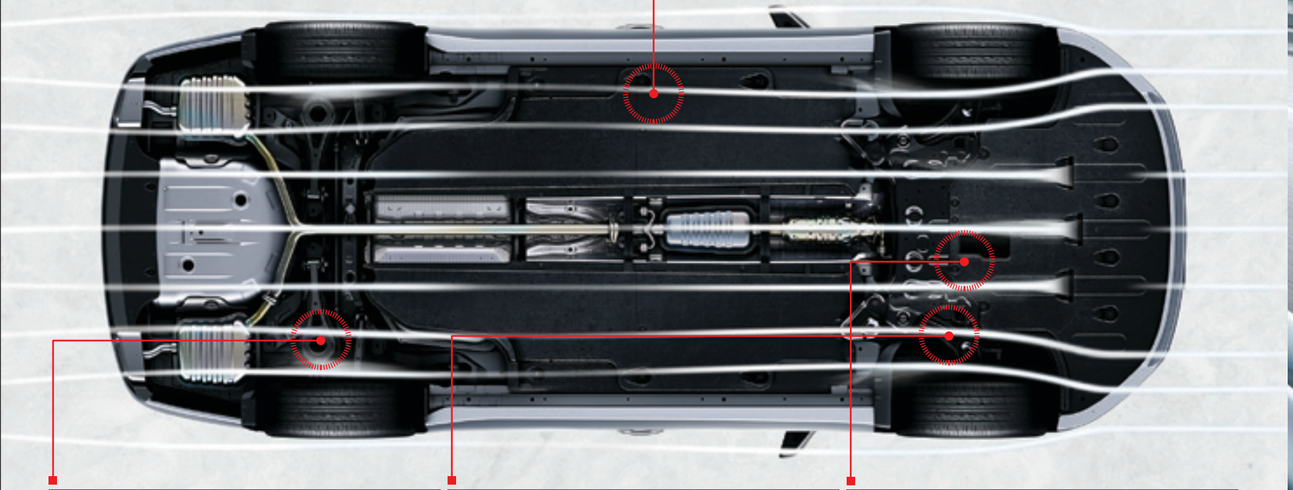
LF-1411

Pictures are for illustration purpose only. Actual unit may differ.

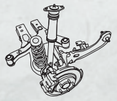
THE HEART BECOMES STRONGER

If the Sonata's designers understand your heart and mind, the car's engineers understand your driving. Hence, the engines are designed to produce the most torque in the low to medium engine revolution range: the one most often used in real life. The result is a dramatically enhanced acceleration response with low-noise emission. Combined with technologically advanced transmission and impressive fuel economy, you have the driving performance you seek.

Boasts the best aerodynamic coefficient rating Cd. **0.27**

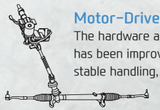


Flat Underbody
The underbody is flat to ensure optimum aerodynamics.



Multi-link Rear Suspension
With a dual lower arm, the rear wheel geometry has been optimized. The arm evenly distributes lateral force and enhances stability during high-speed driving and turning.

McPherson Strut Front Suspension
The McPherson strut front suspension features newly-designed wheel geometry and increased bearing strength. It is highly stable while braking, and enhances driving performance and steering response.



Motor-Driven Power Steering (MDPS)
The hardware and software of the MDPS system has been improved to ensure smooth steering, stable handling, and eliminate shaking.

[LF-1411]

Pictures are for illustration purpose only. Actual unit may differ.

THE DRIVING EXPERIENCE COMES FIRST

The engineering of the Sonata is subtle, but each of its parts enhances the joy and passion of driving. Its suspension, steering, and soundproofing have all been designed with the simple pleasure of the drive in mind.

[LF-1411]

Pictures are for illustration purpose only. Actual unit may differ.

SAFETY

VISUAL PERFECTION

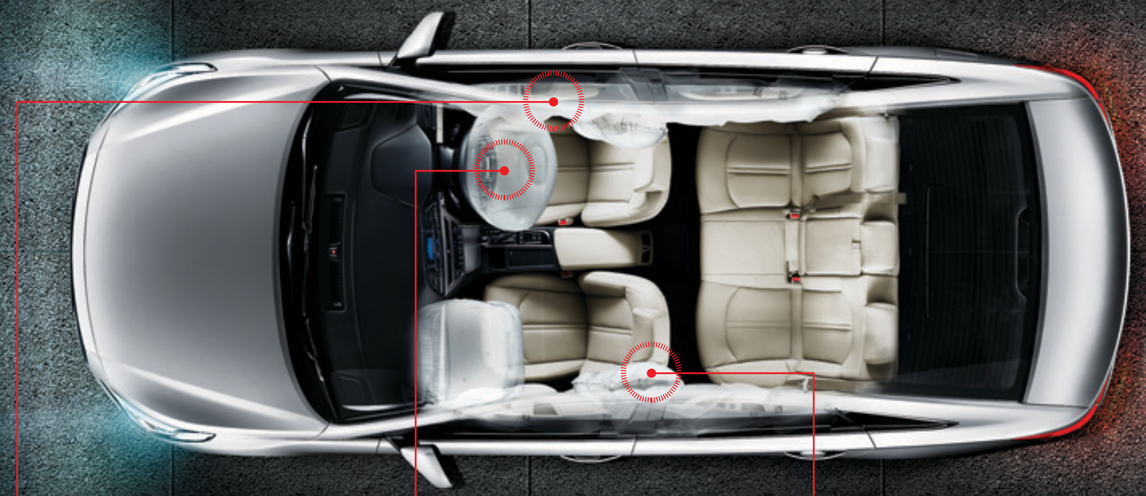
The Sonata has been taken to the next level. From the sweep of its roof, to its stable proportions, to its solid bumpers, it is an object of perfect symmetry.

LF-1411

Pictures are for illustration purpose only. Actual unit may differ.

AIRBAGS SAFETY FEATURES AFFECTS EMOTIONS TOO

When a car is built for safety, drivers feel secure. The Sonata's technology is hidden and so are the airbags safety features. They're ready and waiting for the instant they're needed. With multi-front and rear airbags installed, you and your passengers are always protected and kept safe for your journey.



Front and Rear Curtain Airbags*

Improves protection of occupants' heads in case of side collision.

Driver and Passenger Airbags

Driver and passenger seats are equipped with airbags designed to reduce head and neck injuries in the event of a head-on collision.

Front Side Airbags*

Improved deployment of side airbags helps protect the chest and pelvis more effectively.

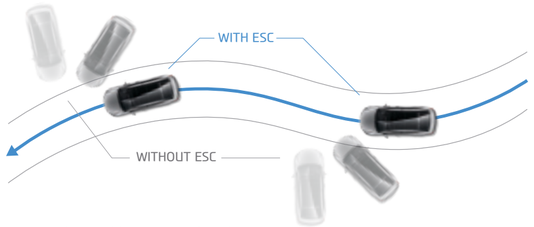
LF-1411

* Only available for Elegance and Executive.

Pictures are for illustration purpose only. Actual unit may differ.

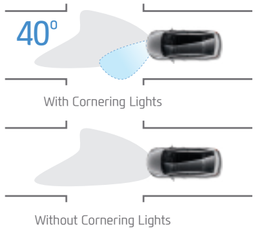
51% ADVANCED HIGH-STRENGTH STEEL (AHSS)

More than half (51%) of the body of the Sonata is comprised of Advanced high-strength steel (AHSS). AHSS is twice as strong as ordinary steel plating, and maximizes torsional and bending stiffness. The Sonata's structure increases energy absorption, distributes any collision forces evenly, and minimizes distortion.



Electronic Stability Control (ESC)

The Electronic stability control (ESC) continually senses steering wheel movement in relation to wheel rotation, controlling the engine, braking system, and steering during sudden braking and turning. By automatically applying braking force independently to each wheel, it lets you maintain control and avoid skidding.



Active Cornering Lights*

See better on a curve with Active Cornering Lights that increase visibility when turning.
It provides illumination for previous blind spots when making turns for greater visibility.

* Active Cornering Lights is available for HID headlamp.

*Only available for Executive.

Pictures are for illustration purpose only. Actual unit may differ.

LF-1411

SAFETY N.V.H

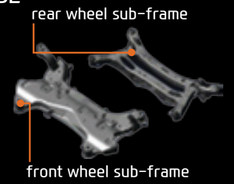
Achieved the highest level of quietness through various NVH designs in addition to fundamental improvement stemming from vehicle body strength enhancement

QUIETNESS

IMPROVEMENT ON ROAD NOISE

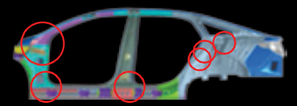
Improved Resonance

NVH improvement (18") through 73% enhancement in wheel strength vs YF Sonata



Improved Quietness

Enhanced quietness by using front wheel cross-member bush and expanding use of rear wheel cross member bush size



Block High Frequency Sound

Use foaming fill-up material on the vehicle's pillar area and side area of the main boxes to block high frequency sound

Preventing Inflow Of Noise Entering

Prevent inflow of high frequency sound to the interior by using door weather-strip in one-turn method

Pictures are for illustration purpose only. Actual unit may differ.

LF-1411

A WORK OF EXCELLENCE

On the outside: style, looks, and confidence. On the inside: strength, energy, and stability. The Sonata echoes your personality. It's time to step inside.
